

At Sandy Lane Nursery and Forest School, we support our children through the use of the KidSafe UK resource.

KidSafe UK provides primary schools and EYFS settings with a child friendly, preventative children's mental health and safeguarding curriculum that can be blended with your current PSHE/RSE provision.

Our aim, through child centred, age-appropriate education is to help children recognise and speak out about any situation that has a negative impact on their mental health and emotional wellbeing. Based on over 20 years' experience & feedback from 100's of KidSafe UK registered schools, this aim is achieved and supported by parents/carers, school staff, governor's and most importantly by the children themselves.
